Dear [name]

Do you dream of working from home?

Of escaping the daily grind by starting an internet business?

I know I do. And so do millions of others. The problem is how to do it.

If you've looked into starting an internet business, you'll know there's a sea of garbage to wade through.

You can spend \$1000s on courses, eBooks and 'push button' systems and still have as much chance of making money as digging for gold with a penknife.

A lot of the systems you've sold either stopped working years ago or never worked at all.

The internet marketing scene can be a greedy place.

With so much poor advice around, it's no wonder people fail at this stuff. And they often fail for the same reasons: They don't know what they are doing and their websites suck at selling.

Thankfully, I managed to find real actionable advice on starting an internet business. The Empower Network generates thousands of dollars for its 73,000 members every month. And I'm not kidding when I say \$1,000s!

This includes:

- An engineer who earned more in four months than his yearly salary
- A high school dropout who earned \$182,382 in 90 days,
- A couple that went from bankrupt to pocketing \$57,425
- A forklift driver who went from unemployed to earning \$57,425 in 90 days.

You can find out how they earn these massive sums by watching this video. In it Dave Wood, the Empower Network's co-founder, tells you *exactly how* the system works and how it makes money for 73,000 people every day.

The best part is there's no obligation to buy anything. Instead you're free to discover whether it's something that could help boost your income or replace your day job altogether so you can live the lifestyle of your dreams.

The Empower Network is making \$1000s for many of its members every month.

So why not check it out? It could change your life.
