

CAP Global - Updated Emails

Email 1 - Your QROPS Report

Hi Michael,

Thanks for requesting our free QROPS report. In it you'll find everything you need to know about releasing your pension from UK tax rules and gaining more control of your life's savings.

At Cap Global we're specialists in setting up overseas QROPS. We've helped 100s of expats to gain tax savings and financial freedom by taking their pension with them.

So if you have any questions on how it works and how you can benefit, please email me back and I'll get back to you within 24 hours.

Email 2 - Did you get my email?

Hi Michael,

A couple of hours ago I sent you our free report on the tax savings and other benefits of moving your pension abroad.

Did you get it?

Can you do me a favour and hit 'reply to this email' to confirm you got it?

These things have a habit of getting stuck in junk folders.

In your email, can you also tell me what your biggest question (or concern) is about moving your pension overseas?

Setting up a QROPS can be complicated. So I'm always interested to hear about people's doubts and how best we can solve them.

Email 3 - All gain. No risk

Hi Michael,

After reading our report, you'll know that moving your pension into QROPS means more money and more control:

- **Retire earlier** - UK pensions are locked until age 65. With a QROPS, you can withdraw as young as 50.
- **Pension Protection** - Keeps your money safe if your previous employer goes into liquidation.
- **Investment Protection** - Up to 90% of your investments are protected, if they go bad.
- **Higher return** - You keep ALL your pension growth. Not your last employer.
- **No 40% inheritance tax** - ALL your savings go to your loved ones.

With so many benefits, if you're moving abroad, moving your pension into a QROPS really is a no brainer.

But there is a lot to consider, and a lot to get wrong. Your age, pension size and whether you can or should take money out of it are just some of the key questions.

You could waste hours looking for answers online (which may or not be correct). Or you can just send us an email or pickup the phone.

As experts on QROPS, we've helped 100s of expats like you to make the right decisions for a smooth transfer. A consultation is free, and you'll then know exactly what you stand to gain with a QROPS and what you lose by leaving your money in the UK.

So email me back with your questions or let me know when is a good time to call.

You can also get more information on our website - <http://www.ukpensiongroup.com/>

Email 4 - Find out what your pension's worth

If you've lost track of your pension's value, we can help you find out. We can provide you with the right forms for getting details on exactly how much you have. We can also advise you on what you'll gain moving it overseas.

As experts in overseas pensions, we'll help you filter through the options so you make the best choices for your circumstances. This even includes how you can cash out some of that fund before you are 55 years old.

We advise expats every day of every week. So I'd be happy to chat with you either by phone or email at no obligation. Let's take a look at your situation together and find out what your best options are.

Email 6 - Customer reviews

Hi Michael,

I recently emailed you about getting an interest free and payment free loan from our UK pension fund or QROPS. Well, this is something we are experts on. As private financiers, we do this on a regular basis for many expats.

At first, some of our clients thought that getting money from their QROPS fund wasn't possible, what with no repayments and no interest rolled up, so I thought I would share real feedback from some of our clients who have benefited from our ability to get them that extra cash just when they needed it.

Thank you CAP Global! I saw your advert regarding emigration finance in the emigrate magazine. The 10% finance you raised me from my QROPS transfer allowed myself, my daughter and grand daughter to start a new life in Canada. **Linda Pearson, Stockton on Tees, UK**

CAP Global allowed me to buy new equipment with their private finance facility! I had no idea that I could raise finance so easily from my UK pension fund and my business is now doing very well thanks to the CAP Global Team. **Stewart Farrell, Manchester, UK**

CAP Global helped me transfer my UK pension fund into a QROPS when I was living and working in Amsterdam! I never even contributed myself to the pension fund but CAP Global privately financed me 20,000 sterling with no monthly repayments to make or any rolled up interest charges. All I need to repay in 10 years time is the original 20,000 sterling. **Simon Khan, Amsterdam, Netherlands**
