

Gets MORE Wind in Your Sails!

Now with High Absorption
Turmeric.
16+ Million Sold.

...”Super Heart” health pill is now even **BETTER** at giving you **MORE** ‘get up and go’. New and improved formula includes high absorption **CurcuWIN®** turmeric for elevated immunity support.

Turns out age really is just a number. Countless Americans are now rediscovering what it’s like to live with more wind in their sails.

No longer are they prisoners in their armchairs, watching life pass them by. Instead they’re doing the gardening... embarking on long cycle rides... giving back doing charity work... chasing the grandkids around the park... and doing all the things that give life joy.

What’s their secret?

Omega Q Plus MAX

A one-of-a-kind heart health supplement. A supplement packed with all the heavy hitters for healthy arteries, energizing blood flow and more.

MUCH more.

Because along with heart health, Omega Q Plus MAX also has you covered for:

- Cellular energy
- Support against oxidative stress
- Eye health
- Brain and cognitive health
- Aging
- Skin health

In fact, everything you need for feeling younger than you have in years and embracing a life filled with adventure, activity, and joy.

“Just got results from doctor good cholesterol was great. I have tons of energy to keep up with my active granddaughter. i just ordered 7 months” -

Bridget Z., SC

Reviews are not representative of the results you can expect and personal experience may vary.

In fact, Omega Q Plus MAX is GUARANTEED to add a bigger skip to your step within 60 days. Or you won't pay a cent.

That's a bold claim.

Yet you'll understand why when you know who developed it.

**Formulated by America's Highly Respected
Cardiologist Dr. Stephen Sinatra**

You might have seen him on CNN, MSNBC, and The Doctor Oz Show...heard him on the radio... or read his best-selling book The Great Cholesterol Myth. Dr. Stephen Sinatra is one of America's most sought after and highly respected cardiology and nutrition experts.

"These nutritional supplements, having sold over 16 million bottles since their introduction, have helped hundreds of thousands of people achieve and maintain their heart health goals," - Dr. Sinatra.

He's helped tens of thousands of people to achieve better heart health—and lead long, healthy, active lives.

From his 40 years of treating patients and researching heart healthy nutrition, Dr. Sinatra knows more about the heart than most.

And he always found it frustrating to see so many patients stocking up on CoQ10 and Omega 3 and think that was heart health taken care of.

It isn't.

The heart has to work in harmony with all the other organs.

The heart also needs healthy blood sugar, low levels of free radicals, and a healthy immune response for it to be strong and healthy.

So Dr. Sinatra dug deep into the latest scientific research and nutritional breakthroughs in heart health.

His goal: To develop a supplement that addresses heart health from ALL angles.

The result is Omega Q Plus. A one-of-a-kind 'super heart' formula that contains all the heavy hitters to support healthy aging:

- Heart healthy DHA from CalaMarine® Omega-3 oil
- A full 100 mg of absorbable Hydro Q-Sorb® CoQ10 (*critical for anyone over 60 or taking a statin medication*)
- Powerful, concentrated Trans-Resveratrol in a form the body needs

And now the formula has got even BETTER with the addition of turmeric.

But no ordinary turmeric.

New and Improved with CurcuWIN® Turmeric

You may know already that turmeric is a potent natural ingredient for supporting a healthy immune system.

Yet what you may not have known is that the body has a hard time absorbing turmeric.

Until recently, the best way of improving absorption was to combine it with black pepper.

Sure, the rate of absorption is better.

But it still wasn't high enough to satisfy Dr. Sinatra.

So just as he sought the most bioavailable forms of Omega 3 and CoQ10...

Dr. Sinatra tracked the most absorbable form of Mother Nature's immunity booster he could find: CurcuWIN® turmeric.

What makes CurcuWIN® special?

HATE choking fistfuls of pills each morning? You'll LOVE Omega Q Plus MAX. It feeds your body with a MOTHERLOAD of heart healthy nutrients in seconds, while being less than half the size of a one cent coin.

Good question.

The secret to CurcuWIN®'s incredible rate of absorption is that it's formulated using special proprietary technology to enhance the absorption of 23 cucuminoids- the active ingredient in turmeric.

The result is that CurcuWIN® increases absorption 46X better than off-the-shelf turmeric!

And inside your body, this means it's like opening up a fire hose on unhealthy inflammation... giving you more vim and vigor in daily life.

4 in 5 Report Better Health Scores

With the addition of CurcuWIN®, Omega Q Plus® MAX certainly looks great on paper.

Yet it's real life results that matter.

A team of scientists from KGK labs in Ontario sought to find out exactly WHAT results people can expect from Omega Q Plus®.

A total of 50 people with an average age of 60 were given Omega Q Plus® twice daily for four weeks. Half of them already had healthy cholesterol. The other half took statins.

Supplementing with Omega Q Plus was the only change to their diet. And they weren't asked to do any strenuous daily exercise that's impossible to sustain long-term.

So at the end of the study, when the scientists checked their CoQ10 levels they were STUNNED!

Nearly every person had INCREASED their CoQ10 levels!

In fact, overall the group with healthy cholesterol had a 49 percent average boost in CoQ10. While those on statins did *even* better.

Their CoQ10 levels had ROCKETED 60 percent.

Results that delighted Dr. Sinatra almost as much as the study's participants.

"This clinical study left me amazed by just how fast 96 percent of subjects saw a noticeable change in their CoQ10 levels - a 55 percent lift on average, after as little as four weeks," said Dr. Sinatra.

Yet that's not the only study to record a dramatic transformation in people's health after supplementing with Omega Q Plus.

A survey of 74 customers revealed:

- 4 out of 5 reported better heart health check-ups
- 7 out of 10 reported having more energy
- 9 out of 10 said Omega Q Plus is one of the most important supplements they take

PLUS customers reported they felt more active.

They ALSO said Omega Q Plus made them feel better than taking four supplements separately.

"This is the second year that I've been taking Omega Q Plus. I enjoy consistently good energy and excellent health at age 79. This is one product I would never omit from my regimen." - Norma
