

**Fed Up with Clogged Pores, Greasy Skin and Irritating Breakouts?**

**How Being in TWO Catastrophic Car Accidents in  
ONE Day Led a Hollywood Model to...**

## **Discover the World's First 'Four Clay Facial' that Cleanses and Detoxes the Skin like a Magnet...**

**Enabling him to fade his scars, gain porcelain  
smooth skin and be back modelling for Macy's in  
just 7 weeks.**

**Millions of people are now using this amazing 'med spa at home'  
facial to fade blemishes, pull out toxins gain radiant, youthful  
looking skin in as little as 20 minutes... just like these women:**

These ladies haven't been using cleansers, primers or serums loaded with harsh chemicals...

Or creams that sit on the skin, clog the pores and cause irritating skin

breakouts...

**Yet their faces look smooth and youthful, even without a drop of makeup.**

What's their secret?

**It's the world's first 'four clay facial'.**

A one-of-a-kind skin enhancing solution that penetrates the skin at a DEEPER layer.

It's a pure yet potent formula that draws out toxins and impurities like a magnet... while **feeding in nourishing nutrients and collagen supporting minerals.**

The 'Four Clay Facial' can save hundreds of dollars on cosmetic products... gets to work in as little as 20 minutes... **and is now taking the beauty world by storm.**

Hi, my name is Andy Hnilo.

Over the next few minutes, I'm going to share a true story on how I was in two terrible car accidents in one day. And how that led to me discovering my revolutionary 'Four Clay Facial'.

A one-of-a-kind skin cleansing and detoxing solution that took me from having a face covered in scars, abrasions and torn flesh...

To gaining porcelain smooth skin in record time...

And save my modelling career in the process.

*I went from having the “the worst compound fracture” the hospital’s surgeon had ever seen to modelling again in 7 weeks*

Yet, even more remarkably...

**This ‘Four Clay Facial’ contains ZERO chemicals or toxins of any kind.**

Instead, it contains a unique blend of four therapeutic clays and five nutrient dense ingredients.

Ingredients you won't find in any other skincare product.

And ingredients so pure you could grab a spoon and eat them.

**My ‘Four Clay Facial’ can work for people of any age or skin type...**

**Whether their skin is sensitive, dry, mature, sun-damaged or oily.**

Even better, It doesn't sit on the surface like most serums and face masks.

So there's ZERO greasy feel.

**In fact, many people find the improvement in their complexion so**

**VAST they stop wearing makeup altogether.**

What's more, thanks to my 'Four Clay Facial's' remarkable ability to...

- ✓ **Gently exfoliate dead skin**
- ✓ **Mildly bleach for an even skin tone**
- ✓ **Cleanse and shrink the pores**
- ✓ **Stimulate blood flow and circulation**
- ✓ **Pull toxins, heavy metals and impurities like a magnet**
- ✓ **Feed the skin with skin nourishing minerals and collagen supporting nutrients**
- ✓ **Encourage new skin cell growth**
- ✓ **Fade wrinkles and fine lines for a glowingly youthful complexion**

...a host of leading websites have hailed it as a revolutionary breakthrough in anti-aging skincare:

This includes Dave Asprey from Bulletproof (*who I'm proud to say is now my mentor*).

He even invited me onto his popular Bulletproof Radio podcast to share my 'Four Clay Facial' story with his followers (*more on this later*):

*"I have had countless people come up and ask me what I use for my skin. I appreciate, and most importantly trust Andy's attention to detail and clean ingredients when formulating his products."*

But you want to know the best part?

**I made it with my own two hands. And without the billion dollar budgets of big beauty brands.**

Yet I was still able to develop a facial that cleanses and detoxes at a DEEPER layer than ANY of the chemical creams or masks you may have tried until now.

So you can say goodbye to peels that leave you with pimples...

Cleansers that leave your skin greasy...

And save a fortune on luxury anti-aging creams that barely fade a wrinkle.

Because in as little as 20 minutes.....

You'll be BLOWN AWAY by how much younger, healthier and radiantly smooth your skin has become.

You'll then laugh with joy as acne, skin blemishes and wrinkles fade with each application.

So if right now, your skin makes you feel old and tired...

Or under appreciated and ignored...

You can finally gain a luxuriantly smooth complexion that makes you feel confident... respected... and ready to embrace the world.

So that when you walk in a room, strangers will guess your age...

While friends will BEG to know your secret.

All thanks to a clay facial that's as natural as 'natural' can get.

**Keep reading to discover how my one-of-a-kind 'Four Clay Facial' is helping millions of people across 76 countries to gain a radiantly smooth complexion in record time.**

*This is Olivia. Within 30 days she'd cleansed her face of unsightly acne, changing her life forever*

**Now you might be thinking this all sounds too good to be true...**

I'll admit...

The idea I could mix up something more pure... more potent... and deeper cleansing than what major beauty brands can muster sure sounds hard to believe.

So I'm going to share all nine ingredients in my facial with you... and the groundbreaking science on how they work.

**Science that explains how my unique formula acts like a MAGNET at drawing out toxins and feeding in minerals and nutrients.**

And science that explains why professional dermatologists and estheticians now recommend my 'Four Clay Facial' for erasing years of aging without needles or risky surgery:

*"I am truly blown away by the different I've seen in such a short period of time - my skin not only looks and feels younger, but it radiates health!" - Dr. Sarah Ballantyne - Paleo Mom*

*"I am a licensed Esthetician and this mask is incredible! As a pre-treatment, it makes extractions a breeze while leaving the skin looking great... Truly works for all skin types and all skin conditions. The immediate and long term glow is quite amazing!" - Pamela*

Before I share my 'Four Clay Facial' with you...

I'm going to expose 3 ugly truths the beauty industry doesn't want you to know about... ugly truths that may put you off chemical beauty products forever:

- X Why most face creams, serums, and cleansers only provide temporary, and often disappointing, results**
- X A hidden ingredient that causes the skin to soak up dirt, toxins and irritants like a sponge, triggering breakouts and redness**
- X Why the chemicals in skin products increase the risk of inflammation, hormonal imbalances and even CANCER**

Yet I've also got good news to share...

**As I'm going to reveal how my 'four clay facial' can save you up to \$2,850 on med spa visits...** while still enjoying the same quality of ingredients in the comfort of home.

Sound good?

Then let's get started.

Like I said, my name's Andy Hnilo.

I'm an actor and model.

I've appeared in TV shows, including Days of Our Lives and Hello Ladies. And I've modeled for major fashion brands, like Calvin Klein, Levis and Oakley.

Now, I'm not telling you this to boast.

**I'm telling you it to show you that I KNOW what it's like to be judged by our appearance EVERY single day.**

I know how suffering from acne breakouts, skin blemishes and wrinkles can cost us opportunities in life...

And how people instantly judge us based on how youthful and healthy we look.

**Yet, I also know what an impact feeling good about our appearance can have on people's lives.**

How it can create what I call the 'ripple effect'.

A feeling you get when you look in the mirror and see a youthful face with radiantly smooth, healthy skin looking back at you.

A feeling that sets the tone for the day. And allows you to bring your best self to every interaction.

**A feeling that was torn from me... and I had to battle HARD to regain in the most brutal way possible.**

A night when I should have died.

A night when I was given a second chance.

**A chance to pursue life with new purpose.**

Here's what happened...

Ten years ago I was modelling in global campaigns. I was on the brink of starring in a movie. And I felt on top of the world.

Like nothing was going to stop me.

But then something DID stop me.

**TWICE.**

I'd been for dinner with friends in Melrose Avenue, Los Angeles.

After leaving the restaurant, I stepped out onto the dimly lit crosswalk...

Glanced at my phone for a split second and

**BAM!**

I got sent flying into the air by an incoming Land Rover.

But rather than fly up...

I flew ACROSS the street...

Straight into the lane opposite.

**WHAM!**

A Toyota truck smashed my broken body a second time.

Just a split second mistake.

That's all it took for my dreams of stardom to get as shattered as my broken body.

The next thing I know, I'm lying in Cedar Sinai ICU bed, with a morphine drip hooked into my arm.

I felt weirdly giddy. Ecstatic even. I was alive!

**But then I saw my mom sitting beside me. A look of anguish frozen on her face at the terrible damage done to her son.**

A look I'll never forget.

And a look I vowed I never wanted to see again.

I had seven broken ribs, a collapsed lung and *“the worst compound fracture”* the hospital’s surgeon had ever seen.

My jaw was shattered into so many fragments I needed two titanium plates to hold it together.

**While my face was a mess of sliced skin... torn sinew... and a patchwork of flesh hastily sewn together in the emergency room.**

Even my teeth were now nubs.

**Yet it wasn't my lack of pearly whites that stopped me smiling.**

I'd also torn a nerve on the left side of my face.

When I smiled only one side lifted, giving me an evil rictus grin. Perfect if I had an audition for the Bond villain. Career ending for anything else.

Put simply...

## **I made Frankenstein's monster look like a Hollywood hunk.**

Everyone around me thought I'd done my last casting call. My modelling days were over. Nobody could recover from such carnage.

**But throughout my life, I've LOVED proving people wrong.**

If you tell me I can't climb a mountain, pass me a rope.

So while lying in the hospital bed, I WASN'T replaying what happened... wishing I could turn back the clock and not look at my phone...

**I was hatching a plot to ACCELERATE my recovery.**

I already knew what I needed to do.

I'd been here before.

**Back in college, I'd suffered from cystic acne all over my face and back.**

Rashes of angry red sores that refused to turn into white heads and vanish, but stayed there for weeks.

When you're an 18 year old kid...

Having a facial 'pizza rash' and a back splattered with welts can be crippling.

I'd joined Berkley on a scholarship to play baseball. And my teammates would give me a HARDER time over my acne than *any* of the times I struck out.

**I knew I had to find a way to clear up my skin. Otherwise college would be ruined.**

But even in those days, I HATED the idea of dousing my body in chemicals.

As you may know, our skin is our LARGEST organ.

It's as vital to our health as our heart, lungs and brain.

**So I've always been a big believer in ONLY feeding the same quality of ingredients to my skin as my body.**

And for good reason...

A typical bottle of acne cleansing cream is loaded with a horror show of ingredients.

Ingredients like:

- Benzoyl peroxide
- Emulsifying wax
- MSM
- Glyceryl stearate
- Dimethyl isosorbide
- Preservatives
- Emulsifying agents

Chemicals now known as CARCINOGENS.

**Chemicals a mounting weight of studies now link to chronic inflammation, hormonal issues and even CANCER.<sup>1</sup>**

Even the products labelled 'all natural' aren't safe.

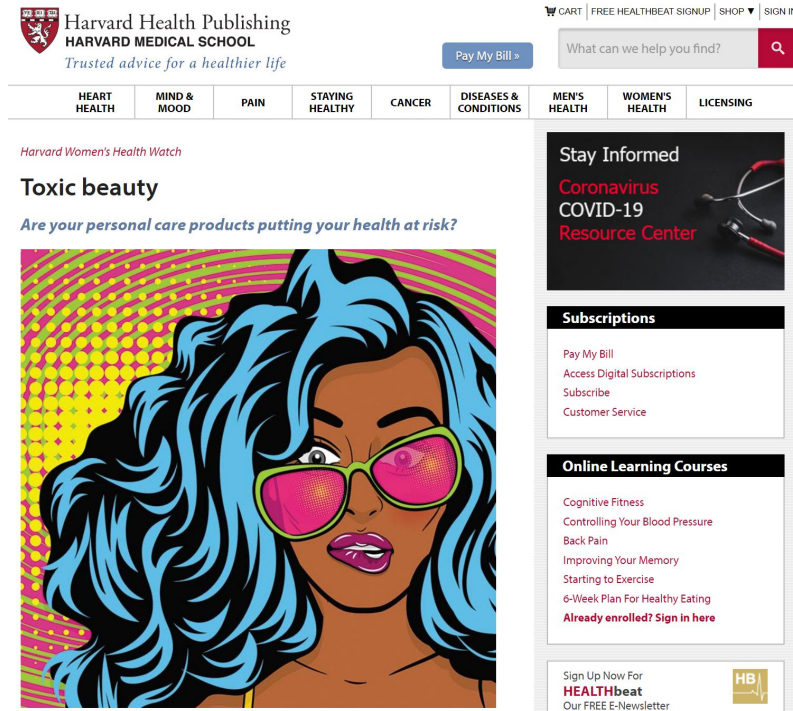

As Harvard Health Professor Tamarra James-Todd warns, *“they replace those chemicals with ones that are equally problematic. So, the products aren't really safer, and in some cases, they may be even worse.”<sup>2</sup>*

1

<https://www.theguardian.com/us-news/2019/may/23/are-chemicals-in-beauty-products-making-us-ill>

<sup>2</sup> <https://www.health.harvard.edu/womens-health/toxic-beauty>

Luckily, I found a better option than chemical laced face cream.

A self-made skincare solution, I invented myself.

A skincare solution that started with a bar of soap.

**A bar of soap with just five natural ingredients.**

And a bar of soap that crystalized my belief that what you put on your body **MUST** be as healthy as what you put inside.

The soap was my base.

**I then combined it with other natural skin enhancing ingredients and rubbed it into small patches of acne.**

It took a while to find the best combination.  
after countless experiments.

a solution that dried up my acne... cleansed my back sores... and enabled me to enjoy college feeling confident about how I looked.

**These self experiments became my catalyst...**

The inspiration for finding an all natural way of fading the scarring and abrasions from my accident...

**And cleansing it of the toxins I'd absorbed from CT scans, x-rays and antibiotics.**

But here's the thing...

Inventing a one-of-a-kind all natural skincare solution that would repair, cleanse and detox my skin wasn't my only challenge...

**I had ONLY 7 weeks to do it.**

I'd already accepted a modeling contract with Macy's.

If I told them my face had been ripped apart in a collision with two cars, they'd drop me like a hot stone.

**I either repaired my face and regained a near flawless complexion within 7 weeks or my modelling career was OVER.**

The clock was ticking.

There was no time to waste.

Feverish research ensued.

## **Unlocking the secrets to gaining porcelain smooth skin in record time became an obsession.**

I analyzed premium med spa treatments...

I went through the ingredients lists of countless night creams, gels and serums...

And I read the latest scientific research on the impact these ingredients had on our bodies.

I quickly discovered THREE UGLY TRUTHS about chemical skin creams.

### **Three ugly truths the beauty industry would rather keep secret...**

And three ugly truths that expose how chemical creams, gels and serums are WRECKING our health with every rub into our skin:

#### **1. They don't go DEEP enough to cleanse the pores**

Don't believe the aggressive advertising claims.

**Cleansers, serums, creams and gels can only offer mild, short-term results.**

Why?

Because they ONLY sit on the surface

They can't penetrate deep enough to remove the oil, dirt and toxins that clog up the pores. The result is bacteria buildup and outbreaks of acne, pimples and greasy skin.

What's more...

Because they only work on the surface, you have to keep applying them daily to gain ANY benefit.

GREAT news for the profits of billion dollar beauty brands.

**Daylight robbery for everyone else.**

Yet that wasn't the only alarming thing I found out about chemical beauty products...

## **2. They're loaded with pore blocking 'comedogens'**

Think irritating skin outbreaks are due to stress?

They're more likely due to ingredients hidden in beauty products called COMEDOGENS.

Comedogens include softeners like acetylated lanolin... fragrances like benzaldehyde... and stearic acids found in many luxury beauty creams.

<sup>3</sup>

Why are comedogens a problem?

**Because these chemicals BLOCK the pores.<sup>4</sup>**

The REVERSE of what you want a skin cream to do. And another cause of ugly outbreaks of pimples, acne and irritation.

Yet *even* this wasn't the WORST thing I found out about chemical skincare products...

### **3. Their Chemicals Get Absorbed into the Bloodstream**

You'll often read on the internet that chemicals in skincare products get absorbed into the bloodstream in 26 seconds.

**For a long time people thought this was an internet myth... but then I found a shocking study that proves it's TRUE!**

The study, published in the medical journal JAMA, found that chemicals in sunscreen get "*systemically absorbed and had plasma concentrations that surpassed the FDA threshold*".<sup>5</sup>

---

<sup>3</sup> <https://lamav.com/blogs/articles/13-common-ingredients-in-cosmetics-that-actually-cause-acne>

<sup>4</sup> <https://www.medicalnewstoday.com/articles/comedonal-acne>

<sup>5</sup> <https://jamanetwork.com/journals/jama/article-abstract/2759002>

**In other words, absorption was higher than is deemed to be safe.**

Not a nice thought is it?

That all those weird sounding chemicals on the label soak into your bloodstream.

So if you've ever felt drained after applying face cream, it could be due to the absorption of chemicals...

**Chemicals now linked to hormonal imbalances, inflammation and even cancer.**

After reading these 3 ugly truths about chemical beauty products...

**I was more determined than ever NOT to use chemicals to repair, cleanse and detox my face.**

With that in mind, I started researching what were the purest, most therapeutic skin care ingredients available in Mother Nature.

And quickly discovered...

**The wonderful world of CLAY**

The use of therapeutic clays dates back thousands of years.

In ancient Greek and Roman times they took mud baths to soothe and heal their skin.<sup>6</sup>

While Aristotle, the Father of Medicine, wrote that eating clay helped to nourish and heal the body.<sup>7</sup>

Well, it may have taken 2,000 years but modern science is now catching up.

**The National Library of Medicine now has over 2,500 scientific articles on the remarkable health benefits of clay.<sup>8</sup>**

That's a ton of research!

And for good reason.

**Therapeutic clays offer a unique benefit over creams, gels and serums.**

---

<sup>6</sup> Healing Clays: History, Science and Uses of the Earth's Best Kept Secret by C. L. Boren and Suzanne Davis

<sup>7</sup> Page 122, Natural Spectaculars: Aspects of Plutarch's Philosophy of Nature edited by Michiel Meeusen, Luc Van der Stockt

<sup>8</sup> <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5632318/>

A unique benefit we need now more than ever.

Because we live in a polluted world.

**We're exposed to more toxins and pollutants than any time in history.**

In fact, we're surrounded by over 80,000 chemicals... most of which have never been tested for safety.<sup>9</sup>

Many of them hang in the air, for us to absorb through our skin.

**This explains why so many people now struggle with plagues of inflammation, bacterial imbalances and toxicity.**

Sadly, it's impossible to avoid all the chemicals in the world.

Yet what you can do is improve the quality and health of your skin.

This will both help to improve the immunity of your skin's surface... and to reduce the inflammation and toxicity you experience.

How can you improve the health of your skin?

**With the MAGNETIC power of clay!**

---

<sup>9</sup> <https://www.nrdc.org/issues/toxic-chemicals>

I only found out about clay's unique magnetic abilities after coming into contact with clay expert Jason R. Eaton.

Jason has written many books on the therapeutic powers of clay.

And I used every chance I got to pick Jason's brains on which clays were the best for cleansing and detoxing my skin.

Jason explained to me something remarkable about clay, which few people know about...

### That clay acts like a **MAGNET**.

It can draw out toxins, heavy metals and impurities from the skin just like you'd use a magnet to attract paper clips.<sup>10</sup>

Here's how it works...

Therapeutic clays have a negative electrical charge.

Most toxins and heavy metals have a positive charge.

**So when you rub clay into the skin it DRAWS heavy metals and toxins towards it like a magnet.**

This draws heavy metals, toxins and impurities to the skin's surface...

<sup>10</sup> <https://www.sciencedirect.com/science/article/abs/pii/S0277538719300762>

So they can then be washed off with hot water. And provide you with clearer, healthier skin in the process.

Yet that's not all.

**Therapeutic clay can also bind with bacteria, oil and dirt clogging up the pores... and pull them to the surface to be washed away.**

So therapeutic clays are like a natural antibiotic. They dry up acne, blackheads, oily skin and other skin blemishes, for more beautiful, healthy skin. And without ANY side effects.

**Therapeutic clays are also rich in beautifying minerals.**

This includes calcium, magnesium, silica, sodium, copper, iron and potassium.<sup>11</sup>

So therapeutic clays not only draw out toxins and impurities...

**They *also* FEED in nourishing minerals and collagen supporting nutrients to promote youthful, beautiful, glowing skin.**

With so many detoxifying, nutrient feeding, and microbial balancing properties...

Therapeutic clays are like multiple beauty treatments in one and...

**The BEST skin enhancing ingredient in existence.**

---

<sup>11</sup> <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5632318/>

After finding all this out, my excitement was EXPLODING.

It was time to start experimenting.

**I cleared out my bedroom and turned it into a lab. While my face became my petri dish for self experiments.**

I started buying all sorts of therapeutic clays, powders and nutrient dense botanicals... many of which have never been used in skincare products before.

Then just like at college...

**I tried all sorts of combinations on patches all over my face.**

Many times I'd be disappointed with the results.

I'd look in the mirror and see my scars, abrasions and sickly looking skin had barely faded...

**and wonder if I had a snowball in hell's chance of recovering in time for the modelling shoot.**

But with each combination of ingredients, I felt I was getting closer.

**Until eventually, the magical day arrived.**

A breakthrough moment when I washed the clay away...

looked at my fading scars and clearing abrasions in the mirror...

And realized I'd found the DREAM TEAM of ingredients that could save my face and career.

**An all star set of clays and powders.**

**A unique formula in which EVERY ingredient has a special purpose.**

Here's the dream team of skin nourishing ingredients I assembled:

## **Freshwater Pearl Powder - Ivory Skin Toning**

Calcium rich pearl powder has a long history that stretches back to the geishas' of Ancient Japan. The geishas would use it to create an ivory like pale skin tone. This showed they didn't work in the fields, but were higher up in the hierarchy.

Scientists have since discovered pearl powder also contains a

substance called nacre.<sup>12</sup> **Nacre helps the skin generate “builder stem cells” called fibroblasts.** And these fibroblasts support the formation of collagen and new skin cells.

So you see, there’s real science behind why pearl powder is an exceptional skin toner and potent anti-aging ingredient.

**Green Desert Clay - Toxin Removal**

Green desert clay is a type of bentonite clay. And **bentonite is the clay most studied for its ability to draw out toxins and heavy metal...** as well as to shrink and tighten pores.

Green desert clay was a lifesaver in my recovery. It helped to soften and condition my skin... while drawing out toxins from my CT scans and x-rays.

		
<b>Kaolin Clay - Soft, Smooth Complexion</b>  Kaolin clay is used in med spa treatments	<b>Illite Clay - Nourishing with Trace Minerals</b>  Illite is the mother of	<b>Rhassoul Clay - Blood Flow and Circulation</b>

<sup>12</sup> <https://www.consciouslifestylemag.com/pearl-powder-benefits/>

to help purify and nourish the skin. It's rich in many nutrients, including a beautifying nutrient called 'silica'. <sup>13</sup> Silica helps to make collagen for a soft, smooth complexion.	all medicinal clays. Its green color comes from its combination of trace minerals. So the brighter the clay the more trace minerals it contains. Naturally, I sought out the brightest illite clay money can buy.	Rhassoul clay comes from the Atlas Mountains of Morocco. In Arabic its name means 'to wash'. Recent studies suggest it helps support blood flow to unclog pores and soak up oil.
--	---	--

## Four Extra Ingredients Rarely Found In ANY Other Beauty Product

	
<p><b>American Ginseng - Superfood for the Skin</b></p> <p>Ginseng is packed with nutrients that make it a critical component to sustaining skin regeneration for a fresh, radiant complexion. American ginseng is also thought to reduce impurities and help with skin cell oxygenation.</p>	<p><b>6-hour Grass-fed Colostrum - Skin Cell Regeneration</b></p> <p>Colostrum is a type of milk that's packed with vitamins, minerals, enzymes and amino acids. Rich in growth factor IGF-1, especially when collected in the first 6 hours, Colostrum also assists in regenerating skin cells.</p>

<sup>13</sup> <https://www.sciencedirect.com/topics/materials-science/kaolinite>

	
<p><b>L-Ascorbic Acid (Vitamin C) - Sun Repair</b></p> <p>The most immediately-absorbable form of Vitamin C on the market, L-Ascorbic Acid brightens the skin by radically reducing the effects of sun damage and fading sun spots.</p>	<p><b>Organic Kelp Powder - Mother Nature's Cleanser</b></p> <p>Loaded with Sodium Alginate, a powerful topical cleanser, organic kelp powder is packed with nutrient-dense antioxidants that promote a radiant complexion by penetrating pores and drawing out impurities</p>

With this incredible combination of clays, powders and nutrient dense botanicals, I was able to:

- ✓ Draw out toxins, heavy metals and impurities like a magnet
- ✓ Soak up bacteria, oil and dirt from the pores
- ✓ Reduce inflammation and gain an even skin tone
- ✓ Support healthy blood circulation to rejuvenate the skin tissue
- ✓ Shrink the pores to eradicate skin blemishes
- ✓ Promote the growth of collagen for more youthful skin
- ✓ Gain a glowingly soft, smooth and healthy complexion

**Until the day finally arrived when I looked in the mirror and knew my quest was complete.**

My skin was now so glowingly smooth and radiant, it was like I'd never

been in a double car accident at all.

**I couldn't wait to show my mother. To show her the son she remembered and loved had returned.**

That while the accident had sapped my zest for life... my clay mask had brought it back.

I was able to fulfill my modelling contract for Macy's on schedule...

And as the photographer clicked away... my smile grew with every photo.

**I'd achieved something everybody had said was impossible.**

While other models had to use concealer and makeup - I could now show up for shoots looking like my photos.

Yet the story doesn't end here.

This was only the start of my 'four clay facial's' adventure...

**An adventure that led to places I'd never imagined in my wildest dreams.**

My goal had never been to create a product for sale.

Accelerating my recovery had been my only goal.

**Yet that all changed when I collected fellow actor Christina Rodriguez from the airport.**

She'd seen me lying in the hospital bed.

She'd seen the deep scarring... the ugly abrasions... and how my skin had been stitched together like a patchwork quilt.

So when she saw me with barely a mark, and my skin smooth as porcelain...

**She was BLOWN AWAY!**

Seeing her do a double take was my first clue I'd found something special.

As we drove away, Christina begged to know my secret.

**Well, no guy likes to admit their favorite hobby is making clay masks.**

But after enough prodding, I admitted to my self experiments...

How I'd discovered four incredible therapeutic clays...

**And how I'd combined them with five other nutrient dense powders and botanicals not used in any other beauty product...**

To create a one-of-a-kind facial cleansing, detoxing and anti-aging clay mask.

After revealing my secret, Christina couldn't wait to share my transformation and story with her friends.

## **I became ‘The Clay Mask Guy’.**

I’d drive to people’s apartments to share my discovery... with a backpack of clays, apple cider vinegar and essential oils for live demonstrations.

Word spread.

One thing led to another.

**And I got an invite from longevity guru Dave Asprey to appear on his popular podcast, Bulletproof Radio.**

For most of the show, I talked about the foods and exercises that had aided my recovery.

**Then in the last five minutes, something happened that changed my life forever.**

Off the cuff, Dave said to me, *"I thought you'd have scars. I can't see any?"*

This was all the prompting I needed.

**I then shared my 'Four Clay Facial' story with the world.**

Now, at the time I didn't have a product to sell.

I didn't even have a website.

**Yet things BLEW UP!**

I woke to find my inbox FLOODED with messages BEGGING to know where they could buy my clay mask.

Yet that wasn't my biggest surprise...

I soon got a call from Dave.

*"I'm really getting a large response from this," he told me excitedly.*

Dave then jumped on a plane so we could discuss getting my clay mask into production.

Let me tell you, negotiating with one of your idols is a bizarre experience. Yet exciting too.

**We promptly shook hands on making 5,000 jars to see how it did.**

I'd love to say it was plain sailing from there.

But like I said, I didn't have a website let alone a manufacturing plant.

Luckily, what I DID have was a friend with a spare room.

**So I bought some horse troughs for mixing... ordered a truckload of ingredients... and got formulating.**

By day I modeled for Oakley.

By night I had my sleeves rolled up, sweat pouring from my brow as I mixed huge batches of clay.

It was a mad time.

Exhausting too.

But I loved every minute of it.

**I was living my dream of creating something I truly believed could change lives. And I was stoked to invent something people WANTED.**

Soon, a bunch of friends joined me for the ride.

**They formed a human bottling line to get my clay into glass jars I'd bought at a dollar store.**

None of them would take a cent in payment. They were happy to help me realize my dream, and get a jar for their troubles.

Then the big day came.

**We launched on the Bulletproof website.**

I held my breath.

Was anybody interested after all?

**Or would I have to go back and tell my friends all their efforts had been for nothing?**

It was a nervous wait.

But then the orders started trickling through...

**Then a trickle turned into a FLOOD.**

Within days we'd SOLD OUT!

Yet that wasn't the best part.

What I loved even more were the reviews.

Reading how my 'Four Clay Facial' was helping people fade ugly patches of acne...

**To gain the silkiest smooth complexion they'd ever had...**

To fade wrinkles and fine lines so much they looked 10 years younger...

**And to feel better about their appearance than in years.**

Feedback that filled me with joy at how my 'Four Clay Facial' was changing lives.

And now I want YOU to join them!

**INTRODUCING**

## **Alitura Clay Mask**

All-in-one facial

Unique four clay formula

9 nutrient dense food grade ingredients

Draws out heavy metals and toxins like a magnet

Exfoliates dead skin and dries up acne

Encourages blood flow that purifies and cleanses pores

Gives you radiantly smooth skin and a youthful glow

ZERO chemicals

Encourages new skin cells  
for younger looking skin

Alitura is Latin for “*feeding and nourishing*”.

And that’s exactly what the Alitura Clay Mask does: It nourishes your skin with the purest, most nutrient dense food grade healing clays and organic botanicals available.

Alitura Clay Mask contains ZERO synthetic ingredients, ZERO GMOs and ZERO chemicals of any kind. Just the pure skin enriching gifts of mother nature.

Alitura Clay Mask also contains ZERO fragrances. This means that it has an earthy scent. Yet it’s a scent that’s reassuring. Because it tells you I’ve stayed true to my word in providing a TRULY all natural clay mask.

**Bottom line - You won’t find a cleaner beauty product on the market!**

The ingredients in Alitura Clay Mask are all hand picked to provide a unique benefit, so it can replace multiple beauty products:

- ✓ **Freshwater Pearl Powder** - Mildly bleaches for an even skin tone
- ✓ **Green Desert Clay** - Pulls toxins and heavy metals like a magnet
- ✓ **Kaolin Clay** - Exfoliates dead skin and fades wrinkles
- ✓ **Illite Clay** - Feeds the skin with minerals and nutrients
- ✓ **Rhassoul Clay** - Stimulates blood flow and circulation
- ✓ **American Ginseng** - Superfood for the skin
- ✓ **6-hour Grass-fed Colostrum** - Encourages new skin cell growth
- ✓ **L-Ascorbic Acid (Vitamin C)** - Repairs sun damage
- ✓ **Organic Kelp Powder** - Cleanses and shrinks the pores

...and you can see and FEEL the results in minutes!

So whether you're in your 20s or 30s and struggle with acne and blemishes...

Or in your 40s, 50s or beyond and want to regain your former glory...

Whether your skin is sensitive, dry, sun-damaged or oily...

Alitura Clay Mask is a one-of-a-kind skin enhancing formula that can provide you with the porcelain smooth complexion of your dreams.

From the moment you apply it...

## **Alitura Clay Mask gets to work drawing out toxins and impurities like a magnet...**

Ready to be wiped away to reveal healthier, younger looking skin underneath.

It also exfoliates... feeds the skin with nutrients and minerals... stimulates blood flow... and provides a host of skin enhancing benefits in a single application.

The result is luxuriantly smooth skin that will THRILL you with its softness.

Velvety smooth skin it normally takes a box full of creams, moisturizers and serums to achieve.

**Yet a blemish free complexion now possible from a SINGLE jar.**

A complexion that will give you a warm rush of confidence every time you catch your reflection...

And see yourself looking youthful and healthy.

A look that will make your friends green with envy and dying to know your secret.

A secret to a near immediate glow that's as natural as 'natural' can get

## **Alitura is formulated with the best ingredients regardless of cost**

Tried clay masks in the past and got itchy, irritated skin?

It's because most clay masks contain only ONE type of clay. This makes them little better than a base layer.

**What's worse, many masks use cheap types of clays. Some even use the same clay used in kitty litter.<sup>14</sup>**

This may explain why cheaply made, yet highly priced, clay masks can cause an angry red rash... even after it's washed off.

**Selling cheaply made clays at a high price goes against everything Alitura stands for.**

Alitura is about attention to detail. And using the best ingredients regardless of cost.

<sup>14</sup> <https://greenlivingideas.com/2015/08/13/how-cat-litter-is-made/>

So Alitura uses only the purest, most potent ingredients possible.

And when combined, you get the most cleansing, detoxing and anti-aging skin enhancing solution money can buy.

**So even if your skin is wrinkled, speckled with pimples and impurities...**

And no amount of cleanser, moisturizer seems to work...

Alitura is the breakthrough solution to a youthful, healthy complexion you've been looking for.

Put simply, there is no other clay mask like it!

## **Made to the highest possible standards**

Along with containing the highest quality clays, botanicals and nutrient dense ingredients...

**Alitura is made to the highest possible manufacturing standards.**

I've come a long way from mixing clays in my bedroom.

I now work with professional chemists to perfect the formula. And I use the best manufacturing technology in the health space, and at plants certified as following good manufacturing practices.

## **Join The Alitura Tribe**

Our production standards may be those of a premium beauty brand. Yet our culture is that of a large family.

**An aura of positivity that brings positivity to every interaction. A positivity that enriches lives.**

**A friendly, loving community of people wishing each other well in achieving skin that makes them feel confident, radiant and gorgeous.**

The collage consists of 20 individual Instagram posts. The posts feature a variety of users, including women, men, and couples, all using the Alituranaturals Clay Mask. The captions are diverse, ranging from simple product mentions to creative descriptions of the mask's benefits and usage. For example, one post says 'Self care @alituranaturals', another says 'Pre-event skincare gatta do it!', and a third says 'I mix my...'. The posts are arranged in a grid-like fashion, showcasing the product's popularity and user-generated content.

## **No matter how bad your skin may be now, Alitura Clay Mask can work wonders...**

If you've spent thousands of dollars on creams, serums and facials over the years but with disappointing results...

**I understand if you're skeptical that Alitura will be different.**

So allow me to share one of our most rewarding success stories on what Alitura Clay Mask can do...

I'd just spoken at a biohacking event about my clay mask.

A young lady came up to me called Olivia.

**Olivia was in workout shorts, no makeup and her face was covered in the WORST acne I'd ever seen.**

Acne that painfully reminded me of my own struggles at college.

*"I need your help, what should I do?"* she said, with a pleading look that broke my heart.

**Now, I'm rarely surprised at what Alitura can do.**

But I didn't want to get Olivia's hopes up.

So all I said was *“I’ll send you a jar and let’s give it our best shot.”*

I didn't hear back from Olivia for a few weeks.

**I started to wonder if I’d hear back from her at all.**

So you can only imagine my relief to get a Whatsapp message from Olivia. A message that said *“Green beauty DOES work!”*

And a message that came with a photo that made me leap from my chair like it had just caught fire:

**In just 30 days Olivia had transformed from the worst case of acne I'd ever seen into a beautiful bombshell of energy and positivity.**

Here's what Olivia has since had to say about her experience with Alitura Clay Mask:

*“I got rid of all the medications once I started using the mask! For the longest time I felt like it was never going to go away. Thank you for*

*your products and for creating a message that tells women and men to stay natural and embrace their inner and outer beauty.”*

Olivia’s transformation is the most beautiful thing I've seen. And I’ll treasure it forever.

## **Join Millions of People Now Enjoying Alitura’s “Ripple Effect”**

Olivia’s transformation is remarkable.

**Yet she’s just one of millions of success stories Alitura Clay Mask is creating in 76 countries across the world.**

People across the world are now discovering how gaining a younger, healthier and more attractive appearance can provide ‘ripple effects’ of self confidence and positivity.

**Krista** - *“I could feel it pulling toxins out and decongesting my skin”*

*“I was struggling with cystic acne and red scarring for years and it was really taking its toll on my emotions. I met Andy and his passion for healing naturally was infectious! I started using the clay mask regularly and really believed it would work by the way I could feel it pulling toxins out and decongesting my skin by the stimulating circulation.”*

**Lonnie** - *“Not only do I feel good but my confidence is at a peak”*

*“There are no secret or hidden ingredients to cut corners; they are as natural as 'natural' can get and they perform with high excellence. When I remove the mask not only do I feel good but my confidence is at a peak.”*

**Sage** - *“The integrity of the product is higher than you will find anywhere else.”*

*“My favorite thing about Alitura products is how I can always trust that the integrity of the product is higher than you will find anywhere else. They don't just have 1 or 2 good ingredients, every ingredient is absolutely next level! This is like beauty sleep in a bottle!”*

**Margaret** - *“An outstanding product that truly does what it says.”*

*"I've never used any skincare product ever that has made such visible differences to my skin. I do not have bad skin but noticed a huge difference in the size of my pores and even the little creases of my neck/face. Recommending this mask to everyone I know and will continue to use it! Thanks so much for creating such an outstanding product that truly does what it says."*

**Jonathan** - *"It makes me feel 10 years younger."*

*"Thank you so much for developing such an amazing product! After using the clay, it left my face feeling clean, radiant, revitalized and smooth. It makes me feel 10 years younger. I'm a Transformation Coach and will gladly recommend this product to my clients!"*

**Jessica** - *"I have tried a million products and this one has proven the best."*

*"I have used the mask for about a month and I can already see some major improvements. I don't have a lot of breakouts but do have a lot of scarring from acne... and I can see and feel those smoothing out. I have tried a million products and this one has proven the best."*

## How to Apply the Alitura Clay Mask

**The Alitura Difference:** Most leading skincare products contain synthetic ingredients and toxic chemicals such as Glycerin and Hexylene Glycol. Your skin deserves better. The Alitura Clay Mask only uses the most Nutrient-Dense, All-Natural ingredients. The obsession to find and use only the most effective natural products on earth, regardless of costs, has resulted in a clay mask that is without rival. Please see below to learn about the nine ultra-effective and unique ingredients in the Alitura Clay Mask.

I recommend applying the Alitura Clay Mask 2-3 times a week. Or you can save it as a pampering treat for weekends.

For best results follow these simple steps:

1. Mix about 1.5 tablespoons of the Alitura clay mask with the same amount of water or apple cider vinegar.
2. Combine the two until you get a toothpaste like consistency.
3. (Optional) Add a couple drops of organic Sea Buckthorn Oil or organic Clary Sage Oil to further nourish the skin.
4. Wait 15-20 minutes as the blood vessels start to constrict and you get a pulsing effect as toxins get pulled out while the micronutrients are escorted into the bloodstream.
5. Wait until it's completely dried.
6. Hop in the shower and rinse it off. First with warm water then cold to close the pores.

## **Saves You Hundreds of Dollars on Beauty Products**

The Alitura Clay Mask is like multiple beauty products in one. It can replace your need for cleansers, primers, foundation and lift products.

This can save you \$250 or more at a spa or department store!

**Even better, many people gain skin so smooth, healthy and naturally radiant they decide to go without makeup as well.**

Just imagine how freeing that will be!

To allow the REAL you to shine through without layers of dangerous chemicals and makeup.

And while your peers look in the mirror and see more wrinkles and fine lines with each passing year...

You'll have skin that seems to be aging in reverse.

Thanks to the one-of-a-kind Alitura facial that leaves your face feeling clean, radiant, revitalized and luxuriantly smooth.

Yet you won't need to pay \$250 for a jar of Alitura Clay Mask. Or even half that amount.

**From this page, you can get a jar of Alitura Clay Mask for just \$59 and get FREE shipping (saving an extra \$10).**

After you click the link below you'll be taken to a secure order form.

It takes only 60 seconds to enter your credit card information. Your order will then be processed using a third party payment provider using the latest internet security. This means at no stage do we access your credit card information.

We'll then send your order of Alitura Clay Mask by first class shipping. It should reach you within 3-5 days.

So after placing your order...

I want you to mark a date in your calendar in five days time.

Mark it 'Alitura Clay Mask Night'.

A night when you'll try Alitura Clay Mask for the first time...

And experience why Hollywood models, med spas and professional estheticians now use Alitura as their clay mask of choice.

But if you're not BLOWN AWAY by how effectively it clears up blemishes... draws out toxins... exfoliates dead skin... and provides the most radiant complexion you've EVER experienced...

**Every cent can be refunded through Alitura's 30 day satisfaction guarantee (*more on that in a minute*).**

[Order Alitura Clay Mask for \$59.00]

## **Softer, Smoother Skin the More You Use It**

From this first time you use it, you'll be amazed AT the difference you see and FEEL after trying Alitura Clay Mask.

Just imagine it...

Within one application, you can start seeing ugly patches of acne, blemishes and impurities wash away...

To reveal the REAL you!

A confident, assured you...

With a healthy, youthful looking face that projects the joy you feel inside...

And a face that beams out positivity and draws people to your aura.

In fact, people may start pulling you aside to ask how you do it.

And it gets better...

Because the more you use Alitura Clay Mask...

The softer and more flawlessly smooth your skin becomes...

With pimples, fine lines and wrinkles all fading further away with each application.

**For this reason, many people like to stock up with 3 jars.**

Stocking up also means they've got their skin routine covered for many months... or even years thanks to Alitura Clay Mask's long shelf life.

The triple packs are also perfect if you want to give a jar to someone as a gift.

**When you stock up with a triple pack you save \$18.00, along with get FREE shipping and a 30 day satisfaction guarantee:**

[Save \$18 When You Order the Triple Pack for \$159]

**Save Up to \$2,850 on Med Spas with the Alitura At Home Facial kit**

With many med spas remaining closed, and unlikely to fully open for some time...

I wanted to bring the med spa experience into your home, and enjoy a pampering experience with a friend or partner.

The Alitura At Home Facial kit is like having a weekly facial at your favorite spa, yet from the comfort of home and for a fraction of the cost.

**With med spa facials costing around \$200, our Alitura At Home Facial kit saves you as much as \$190 a facial.<sup>15</sup>**

Each kit provides up to 15 full facials. So it can even save you as much as \$2,850 over the next 6 months or year.

The Alitura At Home Facial kit comprises of:

**The Alitura Clay Mask (7.1 oz)** - The world's only clay mask to contain four therapeutic clays and five nutrient dense botanicals. It cleanses, detoxes, smooths and purifies at a DEEPER layer than all the creams, face masks and serums you may have tried. And has ZERO chemicals.

**The Alitura Gold Serum (50 ml)** - Takes your skin from lackluster to luminous with the synergy of nature and the latest in cutting-edge

---

<sup>15</sup> <https://www.signaturemedspa.com/price-list>

science. Its regenerative all natural ingredients truly give you that “lit from within” glow.

**The Alitura Pearl Cleanser (100 ml)** - A universal facial cleanser for all skin types. Gentle and soothing, The Pearl Cleanser helps calm irritation and remove excess dirt and oil to leave your skin fresh, radiant and soft as silk.

**The 600 Titanium Microneedle Alitura Derma Roller (.25-1 mm)** - The Derma Roller creates micro-punctures along the dermis and epidermis skin layers. This triggers an inflammatory response, which stimulates cell generation, blood and oxygen flow and thus renewed, healthier skin.

Buying all four items separately costs \$216. So you save \$41 instantly, and then save \$190 with each Alitura At Home Facial kit facial.

[Save \$2,850 on med spa facials with the Alitura At Home Facial kit for \$175]

**You'll Also Be Putting Smiles on Kids' Faces**

When I launched Alitura, my mission was to make an impact and change lives.

**I wanted to do things other brands weren't doing, even if it cost me. And I found the perfect way to do it...**

After my accident severed a nerve, I could only smile on one side of my face. This ruined my confidence. And not being able to smile when you feel happy is crippling.

**So I decided to partner with Smile Train to spread smiles on thousands of kids' faces.**

Smile Train is an international children's charity that provides 100%-free cleft repair surgery to children in 85+ developing countries.

A percentage of your purchase will be donated to Smile Train. So with your purchase, you'll be helping to put a smile on kids' faces, as well as your own.

**‘Porcelain Smooth Skin or Your Money Back’ 30 Day Guarantee**

With Alitura Clay Mask, you can say goodbye to creams that sit on your

face, clog your pores and cause irritating skin breakouts.

Instead, you'll gain the smoothest, clearest and healthiest skin you've ever experienced.

After you try it, I'm confident you'll NEVER want to go back to chemical beauty products again.

But listen: I get it.

Maybe you've been seduced by the glossy advertising of premium beauty brands in the past... and barely faded a single wrinkle.

**That's why I'm taking all the risk with a 30 day satisfaction guarantee.**

Here's how it works...

Within the next 30 days of placing your order, if you're not BLOWN AWAY by the improvement in your complexion, skin tone, and reduction in wrinkles...

You can get a FULL refund.

No questions asked or hoops to jump through.

I want you to feel comfortable in giving the Alitura Clay Mask a try at ZERO risk. So even if your jar is completely empty, you can get a 100% refund within 30 days.

Sound fair?

**Then place your order for whichever package suits you:**

		
<p><b>Alitura Clay Mask</b> <b>\$59</b></p>	<p><b>Alitura Clay Mask</b> <b>triple pack</b> <b>\$159</b></p>	<p><b>Alitura At Home</b> <b>Facial \$175</b></p>

## **We just received a brand new supply of Alitura Clay Mask...**

... But you must act before we run out of stock!

Sourcing all four clays and five more all nutrient dense botanicals to make Alitura Clay Mask isn't easy.

It contains ingredients not used together in ANY other beauty product. And I have to order from 6 different sources.

**So supply often runs out.**

If we run out of stock, it can take several weeks - sometimes up to three months - until the next batch is ready.

What's more, Alitura is also still a boutique brand. Awareness hasn't yet reached the mainstream... yet that's changing FAST.

**People in 76 countries and counting are now rushing to get hold of a jar of Alitura Clay Mask for themselves.**

They're also ordering multiple jars at a time to share with friends and family.

This means that, with so many people stocking up and telling their friends and family about Alitura Clay Mask...

Even though we're using a state-of-the-art manufacturing plant rather than a human bottling line...

**We struggle to keep up with demand!**

I'd hate for you to get your hopes up of FINALLY achieving the glowingly smooth complexion you've always wanted...

Only to come back to this page later today and see we're "OUT OF STOCK".

Let's ensure that doesn't happen...

You can get started with a single jar of Alitura Clay Mask for \$59.00.

Or you can stock up with a triple pack and save \$18.00

Or save as much as \$2,850 on med spa treatments with the The Alitura At Home Facial kit.

PLUS get free shipping (an extra \$10 in savings) and my 'Porcelain Smooth Skin or Your Money Back' 30 Day Guarantee...

**So choose the pack that best suits you while stock is available...**

		
<b>Alitura Clay Mask</b> <b>\$59</b>	<b>Alitura Clay Mask triple pack (save \$18)</b> <b>\$159</b>	<b>Alitura At Home Facial</b> <b>\$175</b>

**Give Your Skin the Nourishment and Pampering it**

## Deserves

Let's do a quick rundown on what I've shared with you today...

I've revealed:

**X Why peels, face masks, serums and gels only provide surface level benefits**

**X Even beauty products claiming to be 'all natural' can contain comedogens that clog up the pores and cause outbreaks, oily skin and irritation**

**X Studies now PROVE that chemicals in beauty products seep into the bloodstream - chemicals linked to hormonal issues, inflammation and even cancer**

**X Due to the amount of chemicals in the world, we're at higher risk of inflammation, impurities and faster skin aging than previous generations**

So, after everything you've read today...

I hope you see why slathering your face with chemical beauty products is not just bad for your skin - it's bad for your HEALTH.

**Most beauty products also don't penetrate DEEP enough to provide the smooth, glowingly youthful complexion you yearn for.**

Your skin deserves better.

YOU deserve better.

**You deserve to have naturally gorgeous and healthy skin.**

**Not battling with clogged pores, irritation or a greasy layer on top.**

And when you're in the prime of life, you deserve to feel confident about your appearance. Not old, tired and no longer getting the same attention you once did.

**Just imagine in 7 days time, looking in the mirror after your first Alitura Clay Mask facial...**

You see YOU... loveliver and younger looking than in years.

A face free of pimples... patches of acne dried up... wrinkles and fine lines faded... and porcelain smooth skin you can see and FEEL.

Then with each application of Alitura Clay Mask, the more glowingly radiant and youthful looking your skin becomes.

**Just imagine how freeing it will be to go out without concealer or makeup...**

And STILL have a clear, luminous complexion that draws admiring glances.

An attractive appearance that draws people's eyes when you walk into a room... and youthful skin that gets people trying to guess your age.

Or how about showing up to a friend's dinner party...

Imagine the “Wow” look on people’s faces after seeing how you’ve gone back in time...

and the pause before they all clamour to know your secret.

**If you’re single, imagine getting higher quality dates thanks to your younger looking photos and confident smile...**

Or if you’re in a relationship, imagine seeing that hungry look in your partner’s eyes again...

The look they had when you first started dating...

**The look that says their only priority in life is seducing YOU.**

These are all windows onto a possible future.

Windows onto what life can be like when you feel confident and attractive.

A vision that can become your reality when you allow Alitura Clay Mask to cleanse, detox and beautify your skin at a DEEPER layer to anything you may have tried before.

**Remember, whichever package you choose, you're protected with a 30 day satisfaction guarantee.**

So there's ZERO risk in giving Alitura Clay Mask a try.

You either get glowingly youthful, radiant skin or every cent will be refunded.

So take a step toward gaining a more confident, attractive and youthful looking YOU...

**Choose your preferred package and place your order right now.**

Then get ready to say “*goodbye*” to slathering on chemical creams that clog the pores... trigger skin irritation... and seep into the bloodstream...

And say “*hello*” to the purest, deepest and most potent skin enhancing solution money can buy...

A clay mask without equal...

**And a clay mask that will give you the most luxuriantly smooth complexion you've ever seen and FELT.**

You and your skin deserve it!

<b>Alitura Clay Mask</b> <b>\$59</b>	<b>Alitura Clay Mask triple pack (save \$18)</b> <b>\$159</b>	<b>Alitura At Home Facial</b> <b>\$175</b>
---	--	---

To gaining porcelain smooth, youthful looking skin that gives you more 'ripple effects' in daily life,

Andy Hnilo

P.S. The Alitura Clay Mask is a one-of-a-kind facial that combines four therapeutic clays with five nutrient dense botanicals to cleanse, detox and anti-age the skin at a DEEPER layer. Rather than clogged pores, greasy skin and irritation, Alitura Clay Mask DRAWS out toxins and impurities to provide radiantly smooth, youthful looking skin in as little as 20 minutes.

P.P.S. The Alitura Clay Mask is supplied with a 30 day satisfaction guarantee. See and FEEL the difference, or every cent will be refunded. Even if your jar is completely empty, you'll still get a 100% refund.

## **Frequently Asked Questions - 1,200 words**

### **Q. How does it work?**

Skin creams, gels, night masks and serums only work on the skin's surface layer. So they can only provide short-term results.

Whereas Alitura Clay Mask penetrates to a deeper layer in the skin. This means it's more effective at exfoliating dead skin, reducing pore openings, drawing out impurities, stimulating blood flow, and encouraging the growth of new skin cells.

### **Q: Why is it better than other clays and facials?**

Most facial clays only contain one or two clays. This makes them little better than a base layer you have to combine with other beauty products.

Whereas Alitura is the ONLY clay mask in the world to contain a unique combination of four clays and five extra ingredients rarely used in skincare products.

Alitura Clay Mask also contains ZERO chemicals or toxins. It only contains natural, nutrient dense ingredients so pure you could eat them with a spoon (*although we do not recommend doing that under any circumstances*).

This means Alitura Clay Mask is uniquely beneficial for your skin, your health and your all round wellbeing.

### **Q: How often should I apply it?**

We recommend applying the Alitura Clay Mask 1-3 times a week. The effects can last a few days after each application, and longer than comparable face masks, night creams and anti-aging serums.

The benefit of the Alitura Clay Mask also builds over time. So you should notice your skin becoming smoother, clearer and less wrinkled with each application.

### **Q: Is it dermatologist recommended?**

Absolutely!

We supply Alitura Clay Masks to many professional dermatologists, skin care experts and med spas. In fact, many skin care experts recommend the Alitura Clay Mask instead of needles and risky surgery.

### **Q. Does it get better the more times I use it?**

Of course!

Your skin is your body's largest organ. Just like with your heart, lungs and brain, the more you feed your skin with minerals and nutrients, while drawing out toxins and heavy metals, the healthier and more youthful it becomes.

**Q: What if it doesn't work for me?**

We know the idea of creating a clay mask more potent, more pure and deeper cleansing than the products of premium beauty brands sounds too good to be true.

So we want you to feel free to give our Alitura Clay Mask a try at zero risk.

If you aren't absolutely blown away by the reduction in wrinkles, fading of pimples and acne or feel your skin isn't as smooth as you'd hoped, you can get a full refund within 30 days.

Even if your jar is completely empty, you'll still get a 100% refund.

**Q: How long does it take to work?**

After you apply the Alitura Clay Mask it takes 15-20 minutes for the blood vessels to constrict. You'll then get a pulsing effect as toxins are pulled to the surface, while minerals and micronutrients are escorted into the bloodstream in their place.

After it's dried, wash it off with warm water and then cold to close the pores.

Then look in the mirror to bask in the smoothest, youthful looking complexion you've ever experienced.

**Q. Does it work for all skin types?**

Yes.

Alitura Clay Mask works for all skin types and ages.

Even people with sensitive skin find it has a calming and soothing effect.

**Q. My face is red. Is this normal and how long does it last?**

Every now and then we will get emails from customers that are understandably alarmed with the redness that they experience after an Alitura Clay Mask application.

This is due to the stimulating effects of the clays and Vitamin C content. It usually goes away within 45 minutes but please contact us with anything unusual or out of the ordinary!

**Q. How often should I use it?**

Your skin and schedule will determine the frequency with which you apply the mask. The “sweet spot” can be anywhere from 1 to 3 times per week.

Allowing your skin cells time to recover and grow is important. So limit your usage to no more than every other day.

**Q. Is it okay if it gets in my hair?**

Absolutely – it is encouraged.

The mask has many ingredients that are known to nourish the hair, and their circulation-promoting qualities are just as beneficial for hair follicles as skin.

Try massaging it into your scalp and rinsing with a refreshing liquid soap. Hair can take on a fuller appearance and increased manageability. You may never need shampoo again.

**Q. Can I add a personal touch to the scent with essential oils?**

Yes!

During the mixing process, you can add 2 to 3 drops of any of your favorite essential oils. We like Lemongrass, Sweet Orange Oil, Clary Sage, Sea Buckthorn, Grapefruit, Ylang Ylang, Raspberry Seed.

**Q. My eyes are sensitive to Apple Cider Vinegar – can I use water?**

Yes. If water is the only emulsifier available, the mask will still work effectively, though it may not activate quite as powerfully without ACV. You can also try a 50/50 mix.

**Q Can I use it on my body as well?**

Definitely. It was formulated to make skin look and feel great. Apply it topically wherever you want, especially on newly-formed scars, as it aids in the healing process and can greatly reduce scar tissue.

**Q: What ingredients does it contain?**

Alitura Clay Mask contains four therapeutic clays and five more all natural, organic ingredients. You won't find this purity or combination in any other beauty product.

Freshwater Pearl Powder  
6-hour Grass-fed Colostrum  
American Ginseng  
10% L-Ascorbic Acid (Vitamin C)  
Rhassoul Clay  
Illite Clay  
Green Desert Clay (Calcium Bentonite Clay)  
Kaolin Clay  
Organic Kelp Powder

That's it!

ZERO synthetic ingredients, ZERO GMOs and ZERO chemicals of any kind.

Just the pure skin enriching gifts of Mother Nature.

**Q: How many jars should I buy?**

You can buy one jar to try it out. Or you can buy 3 jars and save \$18, and ensure you have a supply in case we run out of stock.

We also offer an 'At Home Facial' kit, which includes the clay mask, gold serum, pearl cleanser and derma roller. This provides you with the same quality of ingredients you'd get at a med spa. A single kit can save you \$2,850 on med spa treatments, and without having to leave the comfort of home.

**Q. Many of the reviews I've read mention the smell. What's the deal with that?**

Alitura Clay Mask contains ZERO chemical fragrances. So yes, it does have an earthy rather than fruity or flowery smell.

Yet many customers prefer the fact it does not have an overpowering fragrance. This tells them the Alitura Clay Mask is staying true to our commitment to provide only the best and necessary ingredients.

However, you can easily add lavender oil if a fragrance is preferred.

**Q: How do I get started?**

Simply click on whichever package best suits you.

You'll then be taken to a secure order form. It takes only 60 seconds to enter your credit card information. Your order will then be processed using a third party payment provider using the latest internet security. This means at no stage do we gain access to your credit card information.

We'll then send your order of Alitura Clay Mask by first class shipping. It should reach you within 3-5 days.
