

# SO LONG TIREDNESS!

Get a **FREE** recipe for a Native American energy tea... backed by Harvard research for its ability to reenergize the body without jitters or crashes.

**PLUS** discover which added ingredient helps boost what Dr. Mark Hyman calls “*the most important molecule you need to stay healthy*”... and why this tea is so powerful a group of wealthy businessmen offered \$1 million for exclusive rights to the recipe

If I told you making one small change to your diet could help release flowing natural energy...

Support crystal clear thinking...

And help you be more productive in life...

**You’d likely either write it off as quackery or say I was nuts.**

Well, 100 years ago a nurse called Rene Caisse...

...from Sisters of Providence Hospital in Ontario...

Discovered how to do exactly that.(1)

Because she was passed the recipe for a Native American energy tea...(2)

**A tea the Ojibwa tribe drank to sustain their energy and vitality during Canada’s bitterly cold winters**

After hearing about this herbal tea’s energizing powers...

**Nurse Caisse started brewing it each morning in a huge steaming pot.**

She then walked up and down her hospital wards...

Serving it in hot cups to her patients.

And did it work?

It worked gangbusters!

**Nurse Caisse’s tea proved so powerful at giving her patients a bigger skip in their step that word soon spread like wildfire**

It wasn’t long before people were arriving at her tiny clinic in their hundreds for a single dose...

While others waited patiently in ambulances outside.

Stories of Nurse Caisse’s energizing tea soon became a hot topic throughout Canada.

**And a group of wealthy businessmen even offered Nurse Caisse \$1 million for exclusive rights to the recipe...(3)**

But incredibly, she refused their money on the spot.

She was determined that anyone struggling with low energy... lethargy... and feeling rundown should be able to benefit from her energy tea...

And not just those with deep enough pockets to afford it.

**Nurse Caisse then continued to protect the recipe like it was the Holy Grail almost until her deathbed.**

But recently...

I uncovered the recipe...

Along with stunning modern day research that explains why it’s so powerful.

On this page, I’m going to share Nurse Caisse’s recipe with you.

And you won’t need to pay \$1 million... \$100... or even \$1 for the recipe.

Because I’m going to share it with you for **FREE**.

Why?

**Firstly, so I can continue Nurse Caisse’s mission of spreading knowledge of this remarkable energizing tea...**

...made from roots, leaves, and tree bark.

And secondly, to share a new and improved version I developed...

Drawing on 100 years of advances in nutritional science.

And a version backed by world leading scientific research into what the body needs to feel more energized, vibrant, and full of zest at any age.

This includes studies by popular internet physician Dr. Mark Hyman on the “**most important molecule you need to stay healthy**”...(4)

Along with...

**Harvard Research that Explains Why Nurse Caisse’s 100 Year Old Tea Recipe is so Potent at Generating Flowing Natural Energy without Jitters or Midday Crashes**

Because while Nurse Caisse’s herbal tea recipe may be 100 years old...

**It’s only recently that modern day scientists have solved the riddle on what makes it so powerful...**

And the stunning reason why it’s more potent at energizing the body than downing cups of coffee...

Rocketing blood glucose with sugar loaded energy drinks...

Or any of the off-the-shelf energy supplements you may have tried...

But which left you with jitters or nervousness soon after.

What’s more, on this page...

You’re going to discover how the ability of Nurse Caisse’s tea to give you a bigger skip in your step is also backed by...

**The discovery by NASA scientists of the “universal mechanism” in space.**

It’s a mechanism NASA scientists found hidden inside the bodies of astronauts...

A mechanism that acts like the body’s thermostat for controlling how energetic we feel...

And a mechanism that decides how healthily our bodies age.

After I share it with you...

I think this NASA discovery will flip everything you thought you knew about aging on its head...

As it did to me

**Because the NASA discovery explains why so many of us today feel more rundown...**

**Exhausted...**

**And lousy than previous generations did at our age.**

But the good news is that Nurse Caisse’s energy tea recipe can be a game changer in helping you feel as energetic as a teenager...

Eager to seize the day and get more out of life...

To be more productive and focused in going after your goals...

And to feel like your best years are still ahead of you.

So if the idea of rediscovering the energy and vitality you enjoyed 10 or even 20 years ago excites you...

Keep reading to find out about the jaw dropping research into Nurse Caisse’s remarkable energizing tea, and...
